TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.-"I am just 52 years of ege and during Change of Life I suf-

terribly. I tried sev-eral doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommen ded Lydia E. Pink-ham's Vegetable

Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend, You are at liberty to use my letter in any way."—Mrs.Thomson, 649 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to

If you want special advice write to Lydia E. Pinkham Med-icine Co. (confidential), Lynn, Mass. Your letter will be opened, A special assembly was called yester. read and answered by a woman day at 1 o'clock for the purpose of and held in strict confidence.

COMMERCIAL SCHOOL TO BE ADDED TO'U OF O

H. B. Miller Will Be Dean of the New Department at the University.

PLANS BEING MADE FOR NEW BUILDING

Prof. R. H. Dearborn Transfered Electrical Department of O. A. C.

(Special to Capital Journal).

of architecture.

The authorization for the establishment of the two new schools come about as a result of a recent decision of the state board of higher curricula. granting to the university the exclusive right to establish schools of com-

merce and architecture.

The board appointed President P. L. Campbell to make plans for the school of commerce and report at the June meeting of the board. It is entirely probable that Hon. H. B. Miller, formerly United States consul at Shang-hai, China, will be chosen dean of the school. The main objects of the school will be to prepare students for expert accounting professional marketing and distribution for the consular service. Banking, business law and higher eco-

Banking, business law and higher economics will be taught.

The regents placed the duty of organizing the school of architecture upon Architect Ellis F. Lawrence, of Portland, who drafted the plans for the new \$100,000 administration building, to be erected upon the campus during the coming year. Mr. Lawrence will also report at the June meeting of the board.

Architect Lawrence's plans for the architect Lawrence's plans for the same exhilarating air dries the skin.

will be of Ionic style of architecture, two stories in height, and will be built

are deep-curved lenses

which not only wonder-

fully enlarge your field of vision but give you a

lot of real comfort and

vastly improve your personal appearance. If

you wear glasses, you should know all about

TORIC LENSES

Let us demonstrate and explain their many

Do you know that when your eyesight is gone that you will be helpless? And if you have trouble with your eyes you know

what real suffering is. If you consider the dollar you will get cheap glasses and unexperienced service and continue to suffer.

If you want permanent relief, consider nothing but the best op tician that can be found, and one that has had years of experi-

ence, one who does not give you a prescription and send you somewhere else to be fitted, but does the work himself and car-

ries in stock nothing but the best materials that are manufac-

tured in the country, and does not pu cheap spectacles on your

eyes, but wants to give you satisfaction. This is a serious mat-

ter, and one that you should ask yourself the question: Do I

want to go to a spectacle seller or the reliable optician? Spec-

tacle sellers will sell you the cheapest glass that can be had.

Why? Because there is more profit in them and this is why

they do not give satisfaction. Possibly you could get a fit out of three or four dozen lenses, but this could not be expected out

The optician who knows his business will not use anything but

the best and has but one o sject in view—that is to give you relie!

and glasses that will do you good for a long time. This kind of

work you would not healtate to recommend and you will speak well of him and his business. You will not come back and throw

the glasses at him and go away disgusted. The optician that

expects to continue in business ought to know that cheap ma-

Do you know that the genuine Kryptoc and Toric lenses have a

standard value? And the optician who sells them for less than the standard price knows that he can no longer use the genuine and

is barred from ever handling them again? Do you realize there

is an optician in Salem who has over 31 years' experience in

fitting lenses and who does nothing else? And that since locat-

ing here almost three years ago he has SUCCESSFULLY FITTED OVER 5,000 men, women and children who are well satisfied

and over 80 per cent of his practice comes from recommenda-

tions of his patrons. This should appeal to you when needing

eye attention. When all others fail don't get discouraged, but

see Dr. M. P. Mendelsohn. Your case will not puzzle him. You

don't have to go to Portland, as the doctor fits every eye that

compelled to use the class rooms of other professors. Others are obliged to use the basements of the various boildings.

buildings.

The journalism department will probably be given the basement of the building. Although established less than two years ago this department has grown so rapidly that it finds its present quarters inadequate.

Actual construction of the new building will be begun during the com-

architect Lawrence also submitted

sketches providing that the university campus be laid off in quadrangles. According to his plans the new building will be located where the sun distance stands, just west of President Campbell's residence.

A second quadrangle will be located at the extreme western end of the campus, and will include the site of the present baseball diamond, the tennis court and the artificial pond.

(Special to Capital Journal).

University of Oregon, Egene, April 22.—As a result of the action of the board of regents, last Saturday, the university curriculum will be calarged next year by the addition of a school of commerce and fine arts and a school of architecture.

porily fill the place of Miss Julia Bur-gess, who leaves this summer for a year's sojourn in Europe.

REPUBLICANS SET DATE.

May 4th has been designated as Republican gubernatorial candidates in Salem by the Salem Republican elub, secording to Frederick S. Lam-port, chairman of the program commit-tee of the club. On that date, the armory will be the scene of the meet-ing instead of the auditorium of the commercial club.

All the Republican caudidates for governor have been invited to be present and give short talks on the questions at issue in the present primary nominating campaign. Besides the gubernatorial candidates, the legisla tive and county candidates have been invited to sit on the platform. For this occasion, a special program is being planned and it is expected to be one of the biggest positical meetings before the primaries on May 15th.

Portland, April 23.—Argangements for the abandonment of the Tehuantepee railroad within 48 hours if necessary and the transportation of freight by way of the Panama railroad have been made by the American Hawaiian Steamship company, according to advices received by C. D. Kennedy, its local agent. The peeus employed on the road are said to be demoralized.

MIRENE NOT DAMAGED.

Newport, Ore., April 23.—The gas schooner Mirene which went aground several days ago on the Alsea bay sandspit is in the Alsea harbor today. The vessel was pulled off late last night practically undamaged.

Cherrian Cherringo, April 24-25.
